Stairway Safety Spiratread® Anti-Slip Spiral Step Covers

SCOTGRIP® INTERNATIONAL HD Spiratread® anti-slip spiral step covers incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions.

These heavy duty, tough and durable safety products are manufactured with a reinforced composite base and a graded aggregate anti-slip surface under BS EN ISO 9001:2015 quality-controlled conditions. As a Scotgrip® International quality standard, these products are fire rated, spark and friction tested.

The leading edge of a step is the most dangerous part, especially if it has been damaged, worn smooth or rounded by constant use. By installing Spiratread® step covers not only is this slip hazard eliminated but the lifespan of the step is greatly increased. These heavy duty products are easily fitted onto open grating/grille, chequered plate/flat steel, concrete or wood and are manufactured to fit clockwise or anti-clockwise spiral stairways..
